9.0M HYDRASOL RIB

The 9.0m Hydrasol RIB is the largest amphibious RIB Sealegs has ever produced, and is a dream for anyone needing a large platform for their adventures. The 9.0m Hydrasol RIB comes in at just over 9m long, with massive space in front of the console, along the tubes and behind crew seating.

Add additional seating behind the console pedestal seats with an auxiliary bench seat, or choose to give yourself more space instead. The 9.0m Hydrasol RIB is perfect as a dive boat or fishing craft - or as the workhorse for family excursions. Store paddle-boards, dive gear, fishing gear and more - the only limit is your imagination.
